1-4	Coaster Step Fw pivoting ¼ R on 3 / Together	LRLR
5-8	Military Fw 2X	LRLR

***Ball Press :**

Mouvement initiated by Danny Leclerc during the *2007 Méga-Stage of Tours, France*.
Take a side step on the ball of the foot and keep 50% of the weight on the other foot.

Body keeping a straight line from the head to the toes, that straight line has an angle between 20-30 degrees.

If the left foot is doing the side step, body will incline to the right.

This is the contrary of a C-Shape line.

Have fun,

Danny from Québec!
